

Luxury Suite

A touch of the Orient

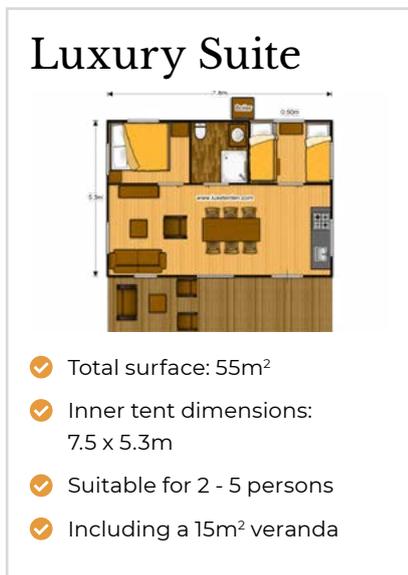

Imagine a night under the stars, but with all the comforts of home. Our Luxury Suite, the newest addition to our range, offers everything your guests need for a camping holiday with a difference.

This safari tent, complete with fully equipped kitchen, bathroom and two bedrooms has a sleek design with an oriental style double roof. And after a hard day's exploring the great outdoors, your guests can relax, on the spacious veranda and watch the sun go down. It's perfect for a family getaway.

- ✓ Sturdy with an oriental touch
- ✓ Optimal use of the space
- ✓ Double roof
- ✓ Luxury and comfort

Specifications

Specifications tent materials Luxury Suite.

Elements	Colour	Specifications	Technical standards
PVC Roof	Beige Brown Green	UV and flame retardant PVC 650gr/m ² . The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837 DIN 4102 – Class B1 M2 Classification NFP 92-503 EN 13501-1 B-s3, d0 Total weight DIN and ISO 2286-2 – 650 gr/m ²
Canvas inner tent	Beige	Flame retardant and Royal Ten Cate Campshield 420gr/m ² with the same unique breathability as cotton. In 2009 Ten Cate outdoor Fabrics introduced an innovative fabric with inherently flame retardant properties. The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading. The Royal Ten Cate Campshield meets with the strict standards of the European, British and American fire regulations. The Campshield of Ten Cate is designed for year round use (summer-winter). It will remain in perfect condition, in all kind of weather standards for many years and is water and dirt repellent. The windows are double layer made of mosquito net and transparent PVC. They can be closed with roll downs blends.	BS 7837:1996 DI N 4102 part 1 – 1998 Of Class B2 M2 Classification NFP 92-503 (1995) CSE RF 1/75/A (1984) Comfort CPAI 84 Water- and dirt repellent Weight 420gr/m ² + 5%
Fixing		The inner tent hanging system is a unique system. It has point loading, so the weight is distributed by multiple fixing points across the surface of the structure.	
Construction		The connectors of the construction are made from 2.9mm hot dipped galvanized steel. The poles have a dia of 80 or 100mm.	

Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you have bought your tent or lodge.
